Medicare Made Clear

Medicare can be, and often is, confusing. There are so many plans and so many changes year to year that it's not surprising folks need some help to decipher it all. If you are approaching age 65, or already there... your mailbox may already be stuffed full of advertisements from Medicare and everyone else who wants you to buy their plan. So what do you do? Should you purchase an HMO or a PPO plan...maybe an HMO/POS? What about a Medicare Supplement/Medigap plan? Maybe you are wondering what the "donut hole" is and why you should try to stay out of it. Or...maybe you want to work past age 65, and wonder how will that affect you and the insurance at your job? Maybe your questions are more basic, like "When do I sign up?" or "Where do I sign up?"

Don't worry! This is a real-world, interactive class with real-life illustrations. In this two hour class you will learn about the various types of plans, processes and penalties associated with Medicare for this year. You will leave with a good basic understanding of Medicare and what the plans cover. There will be plenty of time for Questions and Answers at the end of class. If you are 64 or older, this class will help you make better decisions for your healthcare when it is time for you to choose a Medicare plan for yourself.

Please be prepared to take notes.

Mental Health First Aid takes the fear and hesitation out of starting these conversations by improving understanding and providing an action plan that teaches people to safely and responsibly identify and address a potential mental health or substance use challenge.

It is designed as an introduction to Vinyasa (flow) yoga, but it is also an excellent opportunity to slow down and deepen an existing practice. These classes are mildly vigorous and intended to help strengthen, stretch, and shape the body while simultaneously connecting breath to movement in an effort to increase awareness, reduce stress, and restore balance. Students are taught various poses and modifications to help ease into each pose. Before closing each practice, we will take Savasana, a restorative pose, which will allow the mind and body to rest and rejuvenate. Students are required to bring a yoga mat and one yoga block.
