

Webster Central School District Board Governing Principles

The Webster Central School District Board of Education, as the governing body of our school district:

- Values and upholds student success as the fundamental principle for all decisions.
- Serves as the steward and guardian of the District's values, vision and mission.
- Leads proactively in the District's strategic and operational planning by setting policy.
- Monitors the District's educational and administrative performance, and ensures fiscal responsibility.
- Ensures that the District possesses necessary human, financial and other resources.
- Values and promotes a positive and productive working partnership between the Board, Board leadership, and the Superintendents.
- Engages all Board members in the governance process.
- Values and prompts positive and productive relations with the community.
- Develops the governing skill of all Board members.
- Promotes active teamwork on the Board.
- Takes accountability for its own performances as a governing body.
- Protects the privacy and confidentiality in matters involving students, personnel, legal, and contractual matters.
- Practices the highest level of ethics and integrity.

Agreed to by Board of Education: July 2026
