Cheap Travel Strategies

Travel doesn't need to be expensive! This class will cover two strategies for cheap travel. First we will learn to use the various features of Google Flights to find the cheapest airfare available without spending time searching multiple airline websites. You'll see how this free search platform can do what some companies are charging a monthly membership fee for! Second, we'll learn the basics of travel hacking. Travel hacking can help you get free or discounted flights, hotel stays, and more by strategically using rewards and promotions earned from credit cards. Anyone can do it with a little planning and know how. These strategies can be used for both international and domestic travel. Medicare Made Clear

Medicare can be, and often is, confusing. There are so many plans and so many changes year to year that it's not surprising folks need some help to decipher it all. If you are approaching age 65, or already there... your mailbox may already be stuffed full of advertisements from Medicare and everyone else who wants you to buy their plan. So what do you do? Should you purchase an HMO or a PPO plan... maybe an HMO/POS? What about a Medicare Supplement/Medigap plan? Maybe you are wondering what the "donut hole" is and why you should try to stay out of it. Or...maybe you want to work past age 65, and wonder how will that affect you and the insurance at your job? Maybe your questions are more basic, like "When do I sign up?" or "Where do I sign up?" Don't worry! This is a real-world, interactive class with real-life illustrations. In this two hour class you will learn about the various types of plans, processes and penalties associated with Medicare for this year. You will leave with a good basic understanding of Medicare and what the plans cover. There will be plenty of time for Questions and Answers at the end of class. If you are 64 or older, this class will help you make better decisions for your healthcare when it is time for you to choose a Medicare plan for yourself. Please be prepared to take notes.

Come spend an evening luxuriating in the aloha of the islands as we look more deeply into the history, culture and spirituality of this remarkable part of America. We'll tour the "Grand Canyon of the Pacific" and experience Kaua'i's mystical Na Pali Coast, all the while surrounded by the song of wintering humpback whales. In addition, we will get to meet with native kahuna shamans, experience spiritual ceremonies at sacred sites, and visit the temples of many of the world's beliefs that call Hawai'i home. For those who are interested, there will be an opportunity after the presentation to discuss the details of our 10-day spiritual tour to Hawaii in January 2026. A Psychic's "Show and Tell"

Our psychic self is natural communication... it is not fantasy. In this session, we'll uncover the natural ability of psychic-medium communication...ours and yours...in the here and now.

Our psychic nature has many names, such as, intuition, ESP, mediumship, channeling, seer, and the 6th sense. They all describe a way to convey information—the "vibes" of energy—from people, places, and things, seen and unseen. This is expression of consciousness, our being, our natural selves.

While in times past the 6th sense was seen as mystical, mythical, magical and/or mayhem! However, through a greater understanding of neuroscience, deeper studies in parapsychology, and the opening door into quantum physics, we now can wrap our hands, head, and heart around our intuitive senses. This new understanding allows us to better discern this information apart from the fears and myths that surround the psychic-medium realm so that your intuition can harvest the insights you receive in a positive and uplifting manner.

In this class, we will present a "no-fear" simplicity of the psychic senses while also discussing some of the common misconceptions of psychic-medium readings. In addition, Susan and Connie will offer a demonstration of psychic-medium readings to those attending.

Please note: Based on the time and the number of people in the class, not everyone will receive a message.
